

AUTENTICO® Bio Strip

Product Description:

Autentico Bio Strip is a high quality remover of water-based paints and finishing products e.g. wax and varnishes. Autentico Bio Strip is water-based, free of solvents and easy to use.

Location:

Interior and Exterior

Suggested Applications:

Removal on paint, varnish and wax from wood, PVC, metal, glass and more. *Not suitable for removing non-film making paints e.g. Lime and Clay paint.

Preparation:

Stir well before use. Do not dilute. Protect surfaces which are not being stripped, e.g. glass and windows.

Application:

1. Generously apply directly with a synthetic bristle brush or short pile/foam roller **2.** Leave 30 minutes then scrape off the excess paint with wall scraper **3.** Repeat if you feel there are areas which need more Autentico Bio-Strip to be applied **4.** Clean surface after one hour with a clean damp cloth until the surface is smooth, clean and free from any Autentico Bio-Strip residue.

Coverage Rates:

Covers approximately 4-8m² depending on surface profile and porosity and application technique.

Packaging:

Autentico Bio Strip is available in 500ml

Limitations:

All Autentico Products should not be applied in high humidity, below 10°C or above 30°C.

Storage:

Keep in a cool, dry place. Away from risk of frost.

Cleaning and disposal:

Excess from tools and mixing vessels before washing in warm soapy water. Do not empty into drains or watercourses.

Environmental:

This product is free from solvents (VOC). Autentico Paint uses only the finest quality, low odour and the minimal environmental impact raw materials. Our manufacturing process are zero waste and all paint formulations are designed for maximum performance with a minimum impact on users' health.

Health and safety:

Wear gloves and safety goggles - contact with eyes: wash immediately with warm water consistently with eyelids open and seek medical advice - do not apply high humidity, below 10°C or above 30°C - safety data sheet available on request.
